

MouldClean

Natural and Biodegradable Mould Killer

Product Code: CGMC
Packing 5L, 20L, 200L

Description: CellarGuard MouldClean is an antimicrobial cleaner and mould killer.

Typical Properties

Appearance: Clear liquid
Smell: Acetic acid smell. Safe.

Features Benefits

Effective. Kills mould not just bleaches with chlorine. MouldClean is a mild, plant acid mould killer with plant-based surfactants. Suitable for food and winery facilities. CellarGuard MouldClean kills and cleans mould and prepares surfaces for CellarGuard Surface Sanitiser and Protectant and is environmentally friendly.

Use Directions

Step 1: Thoroughly wash the surface and allow to dry.
Step 2: Spray **UNDILUTED** onto surfaces. Leave to dry for 10 – 30 min.
Step 3: Rewash surfaces if required prior to applying CellarGuard Plus.

Quality Certifications

Manufactured under ISO9001-2008; GMP (medicinal products, part 1).
Manufactured under ECOWarranty environmental sustainable standards.

Handling precautions

Do not allow product to come in contact with eyes. Rinse eyes for 5 mins if product gets into eyes. Although safe we recommend do not ingest.
